What is the advantage of having a Bachelor’s degree over an Associates degree in Radiography?

Many indicators point to the increased need for Radiologic Technologists to possess a higher level of education. A bachelor’s degree provides a competitive advantage in an ever-changing healthcare environment, a higher level of professionalism, and greater job opportunities. The American Registry of Radiologic Technologists now requires further education and competency in all fields of imaging technology.

How can I find out if my pre-requisites transfer?

First you will need to create a MyResU page by going to http://my.resu.edu/inquiryform. Once you are brought to your main page, click on the tab titled, “Getting Your Transcripts Evaluated” and follow the instructions there.

When can I start and what is the application deadline?

BSIT begins every Fall and Spring semester. We accept applications on a rolling basis until all seats are filled. *Due to clinical placement, health documentation must be completed three weeks prior to the start of the term.

What is the application process for the BSIT program?

You will first need to submit your online application through your MyResU page. If you do not have a MyResU page yet, please create one by filling out the inquiry form here: http://my.resu.edu/inquiryform.

The rest of the process is to register and take the TEAS exam and submit official transcripts from every college/university attended.

Where do I sign up to take the TEAS exam?

You may sign up to take the exam at Resurrection University once you fill out your online application and pay the $50 nonrefundable application fee. Your 1st attempt here is free. Should you need to retake the exam, you will need to pay a nonrefundable fee of $50 to register for the next date. You may take the test 3 times per enrollment period.

How do I study and prepare for the TEAS exam?

Based on feedback from applicants who have successfully completed the TEAS exam, the ATI TEAS Study Manual, 6th edition study guide, is recommended. This study guide is suggested as one of the most helpful test preparation resources and practice assessments accessible online. You can purchase the study guide, ATI TEAS Study Manual, 6th edition, from Amazon or directly from ATI’s website www.atitesting.com.

What is the admissions criteria to get into this program?

We look for an overall GPA of a 2.0 or higher, a TEAS exam score of 60% for the cumulative score and a sub-score of 60% for the science section (anatomy and physiology). You must also be in good standing with all prior colleges and universities attended.
